# Number of U.S. Diocesan Priests

# Number of U.S. Religious Priests

# Number of U.S. Ordinations

# International Priests

- About 17 percent of priests serving in U.S. dioceses in 2004 were foreign-born, according to CARA research (87% diocesan)
- Some 30% of these men were educated in U.S. seminaries; all others came already ordained and, in most cases, entered directly into ministry after only a brief orientation to American religious practices

Concern: Since most priests coming from other countries are unfamiliar with U.S. culture, language, and church practices it is difficult for some parishes to adjust to these pastors

# The Theme of Incarnation

Father Murnion spoke of being “preoccupied these days with the original mystery and continuing mystery of the Incarnation...the wonder of who He was, the love that bore him, and the consequences for who we are.”

“The crucifixion is, of course, the ultimate expression of the Incarnation, the self-emptying of Jesus.”

“The Incarnation inaugurated a divine-human dialogue that resonated from the depths of being—the being of God and our own being—and calls us into dialogue.”

# The Theme of Dialogue

“How curious and sad that ‘dialogue’ has become a divisive word among us! What a waste of a gift!”

“I find that the healthiest spirit—where fellowship in faith, hope, and charity is reflected in mutual challenge, support, and a sense of humor—is where the priests with their bishop candidly discuss the issues facing the church.”

“Through dialogue, cooperation and collaboration at all levels of the Church is furthered, with the Pope, bishops, priests, staff, and parishioners.”

# The Importance of Parish

“The parish is for most Catholics the single most important part of the church.”

“Besides defining and expressing the identity of the individual as sacred, relational, and responsible, parishes define the world in ways that will affect one’s involvement with the world.”

# The Meaning of a Pastoral Parish

To be pastoral a parish must be

- ❖ “accountable to official teaching and norms but accommodating to local cultures and individual needs;
- ❖ attentive to the demands of personal piety and morality as well as to social morality and spirituality;
- ❖ authentic in its teaching and worship and very pragmatic in its programming.”

# The Meaning of Pastoring

“Pastoring requires constantly reaching out to those who are not part of the community and especially those who are most marginal, most distressed, most in need.

It means enabling parishioners to be missionary in their families, work, and communities—bringing the life, meaning and message of Jesus and his Gospel to all they do.”

# The Eucharist in Parish Life

Using the image of the Body of Christ for the Church, Fr. Murnion maintained that church design and worship practice should make clear

❖ “the relationship between word and sacrament, the congregation and the presider, the spiritual and physical, and material reality and action.”

“Our gathering in the Eucharist and our going out to the poor are intrinsic to each other.”

## Organization of Parish Life: Planning

“Once I was accused of ‘having an agenda.’

My reaction was to say: ‘Noooooooooooooo!’

**Of course** I have an agenda. Don’t you worry about those who either profess they don’t or **actually don’t** have an agenda.

**Doesn’t having an agenda mean having a mission that is more than wishful thinking?”**
